Afterwards they were divorced and Mr. Frost married again but this second marriage did not bring happiness and now after years of separation they have again concluded to live the remainder of their lives together.

Mrs. Frost has lived in Norway till a few weeks ago when she sold her house and went to relatives in Somersworth. Something About Town Roads.

We have said nothing about our candidacy for the road commissionership for the past two weeks.

Those obliged to pass over our highways have had trouble enough of their own without reading about good roads in the paper. It is easy to talk about good roads but how are we to obtain them?

Our candidacy for the office receives a good support from non-residents. That pleases us. These people know something of the advantage of roads which are not heaps of sand and dust, or streaks of mud. Can we have such roads? Certainly. They will not come down from the clouds by simply wishing for them. We must build them and must pay for it.

We have had our say as to how they might be built. We have made a proposition to the voters of this town. It's for them to accept or reject it.

We want the roads. Can we have them?

Maybe, and we feel there is a better way to do it than by the piece-meal plan suggested. Will not some one enlighten us? We'll print. Space on this subject is yours by the asking.

Next week we shall print an article showing how it may be done and the land abutter pay a certain portion of the expense. We publish it for what it's worth and ask you to give it a careful reading.

In this road building and repairing it must be borne in mind that we have some eighty miles of roads to care for.

Farewell Supper at Beal's House.

It was last Tuesday evening, and was occasioned by J. M. Palmer's leaving on the following day. The especial friends of his table insisted upon a suitable observance of the separation soon to come. Those present were Dr. E. A. Sheehy, Lester Cowan, E. A. Goudy and J. M. Palmer. The table was appropriately decorated and hand painted souvenirs laid beside each plate and the four relayed themselves on the fat of the land (said themselves) upon a suitable observance of the separation soon to come. And made speeches intermixed with song, and all wished Mr. Palmer success and continued prosperity and happiness.

The following day Mr. Palmer took leave of his friends, and promised to occasionally visit Norway, and renew his acquaintance in and about town.

Karl Tower and H. T. Pinkham of Boston are spending two weeks with Mr. Tower's parents, Mr. and Mrs. F. E. Tower.

If people would only sign their names to letters or written articles of any kind, they would save themselves and others much trouble. The other morning the editor of the ADVERTISER found some advertising matter under the door. He has no idea who wants to do the advertising. The result is that as the affair is to happen before next week, it will then be too late.

Rev. C. A. Brooks and family returned from Portland, Tuesday evening, where they have been attending the Maine Conference. A very warm reception by the church people awaited them at the parsonage with many greetings of gladness for their return for another year. Mr. Brooks was called by telephone to attend the funeral of Benjamin Wilson, Wednesday afternoon, at South Woodstock.

A local Peterboro, N. H. paper says: "A new song of unusual merit has been put upon the market. The words were written by Harold D. Carrow, the music by Verne M. Whitman. It is entitled, 'A Letter to Heaven,' and is very attractive, not only in appearance, but also in sentiment and musical quality." Also that: "One of the features of the vespers service to be held Easter Sunday at the Unitarian church will be the singing by the quartet of an anthem written by Prof. Verne M. Whitman. It is a stirring jubilate Deo in F." Mr. Whitman's musical friends in Norway will be pleased to see the new song. The anthem has been sung here we believe.

The petitions for the postoffice have been sent in. There were right round 500 names on the two petitions. Jesse P. Edwards, the present clerk at the postoffice, had some rising 300 who want him for postmaster and Chas. S. Akers, clerk at the Blue Store, the balance. If there is to be a vacancy, which many doubt, then the powers that be will appoint some one. Capt. Moses P. Stiles, and present incumbent, expect to be continued under late department ruling. This undoubtedly will be so should the report of the inspector recently here be favorable to him. What that report was we know not but presume it to be favorable, hence it's very likely Moses will deal out the mail and be called upon to lick postage stamps for some time to come notwithstanding 500 good and true Republican patrons ask for some one else to fill his place. Democrats in this don't count.

Murray of Lewiston. They took a wagon load of paraphernalia, including angletwines and casting bait. Nothing less than a record fish of from 14 to 18 pounds need apply. They will stop at Nason's, Kite Cove.

Wm. F. Jones, Esq., since the adjournment of court, has been busy "getting ready" and has been in almost daily consultation with Chas. E. Brown, guide, trapper and hunter. They started out with a pair of black horses, a cut-under and driver, Wednesday a. m., at 7.35.

Baseball has had new life since snow has gone and the ground become in a measure dry. "The boys" are putting in all their spare time in practice games. They are hoping to arrange games for Fast Day. The baseball fever is with us again. It is spring. It is spring.

The superintendents of the various departments in the shoe factory presented James M. Palmer, who closed his labors with the firm as head bookkeeper this week, with a fine Waterman fountain pen, Tuesday forenoon. Mr. Palmer was taken by surprise, but he managed to make a good speech, and is very much pleased with the present and the thoughtful kindness that prompted it.

H. F. Webb Co., corn packers, last season had about 300 acres of corn planted for them in this vicinity. This year they cut down their acreage quite materially, what was being substituted in the fall and winter. We understand the corn market has recently brightened up sufficiently to warrant their increasing their acreage and this they are now doing. Farmers who wish to plant more corn for them than was subscribed can undoubtedly be accommodated by speaking to D. M. French. We are glad to see that there is more demand for Maine packed sweet corn than was expected early in the season.

An Easter Party.

Clara Louise Hathaway gave an Easter party to sixteen invited friends at her home on Pleasant street, Monday evening.

The house was beautifully decorated in colors appropriate to the season. The decorations in the reception room were purple and white. White tables were arranged about the room in an orderly manner. Instead of the rings generally used in the game dainty booklets with pencils attached were used for score cards.

A novel method of choosing partners was introduced. A large "chicken pie" was arranged on a table. The pie was a basket covered with crepe paper and inside were sixteen imitation chickens.

To each chicken was fastened a paper string, the end of which hung out over the basket and the whole was covered over with crepe paper, several chickens sitting on top. Eight of the strings were one color and eight another. Each chicken was lettered, two having the same letter. The girls drew one color and the boys the other, and those getting the same letters were partners.

Punch and light refreshments were served at the tables and later ice cream and cake.

At a late hour the guests departed, having spent a most enjoyable evening. Those present were Pearl Cook, Myrtle Haskell, Rosamond Dunham, Mildred Bangs, Marion Crockett, Eva Smith, Winona Stearns, Bert Hutchins, Philip Haskell, Clarence Dunham, Albert Fogg, Roy Pratt, Roscoe Merrill, Benjamin and Henry Hosmer.

Rev. E. S. Cotton is spending a few days in his old home in Wolfboro, N. H., and in Boston. The pulpit will be supplied Sunday, as he will remain away until the first of the week.

Mrs. L. M. Lunt is to take charge of N. Greenberg's dry and fancy goods store on Lisbon street, Lewiston. She will commence work at once. This week she is visiting friends in Farmington.

If Norway residents are up early enough they may see the science clubs of young people and school teachers returning from their early morning rambles for the purpose of studying bird life and nature, and in addition there is the social side that young people instructively understand.

J. M. Hannaford, who lives in the Pines opposite the entrance of the fair grounds, was up street Wednesday, for the first time since Dec. 31st. He is looking finely though does not feel any too robust. He had a fall last December which caused him to go to the Central Maine General Hospital to be operated on for hernia and he has kept indoors pretty close since.

A. P. Bassett is at work clearing up the late Electra Park preparatory to building an open air rink which he hopes will be completed in a season. The rink is to be the public by the middle of May. In addition to a large skating surface there will be a dance floor so that young people can find an opportunity to indulge in their favorite pastimes. The new enterprise will be located at Central Park.

The B. F. Spiney Shoe Co. are having their annual spring stock taking and work in the factory as a consequence is rather slack at the present time. Many orders are coming in daily and the prospect is very good for a good summer's run. The Radcliffe Shoe is rapidly growing in favor. The Sanborn shop has been entirely refitted for the manufacture of Goodyear Welt shoes and is running every evening to enable the firm to keep up with their orders.

Rev. Smith Baker of Portland has been engaged to deliver one of his most popular lectures at the Congregational church, Norway, Friday evening, April 27th. This lecture is to take the place of the annual men's supper. It was thought best to vary the program this year and give the people an intellectual feast. The subject of the address will be "Thoughts on Art." This lecture has never been given in Norway and it will be the event of the season. At the literary clubs of the town will want to hear Dr. Baker. Admission is put low so that all the scholars of the town can attend.

One of the best concerts we ever had is the variety of all who attended the Easter concert at the Congregational church, Sunday at 4 p. m. Every number on the following program, was first class:

HAPPY WOMEN.

Wouldn't any woman be happy. After years of backache suffering, Days of misery, nights of unrest, The distress of urinary troubles, To find relief and cure? No reason why any reader Should suffer in the face of evidence like this:

Mrs. Almira A. Jackson, of East Front St., Traverse City, Mich., says: "For twenty years I was doctoring for kidney and liver trouble, but without benefit. Just before I began using Doan's Kidney Pills I was almost paralyzed. I could hardly stand on my feet because of the numbness and lack of circulation. Had a knife been thrust into my kidneys the pain could not have been more intense. My sleep was disturbed by visions of distorted figures. The kidney secretions were annoyingly irregular, and I was tortured with thirst and always bloated. I used seven boxes of Doan's Kidney Pills. The bloating subsided until I weighed 100 pounds less, could sleep like a child and was relieved of the pain and the irregularity of the kidney action. My circulation is good and I feel better in every way."

A FREE TRIAL of this great kidney medicine which cured Mrs. Jackson will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. For sale by all druggists; price, 50 cents per box.

An Old-Time Sugaring Off.

When I taste the maple syrup For the first time in the spring, Thoughts of childhood days sweep o'er me. Pleasant memories of by-gones, Days when life knew naught of sadness, Days when life was full of bliss, When each hour was full of sunshine, Joy, was all, and sorrow a myth.

Visions of a sainted mother, Of a father good and kind, Ever thinking of their children's pleasures, This was foremost in their mind.

Visions of a bright April morning, When this news we lauded with joy, "I am going to sugar off to-day, You may ask the girls and boys."

When we sent our invitations To our school friends far and wide, We were taught that to the unfortunate Our camp doors must open wide.

That the children whose lives were barren, Homes with no sunshine entered, They must be invited too. So we rushed our invitations, In a most informal way.

Each child hastened off their duties, To a father good and kind, Got our spoons and saucers ready, By the time our guests arrived, Visions of a bright April morning, When this news we lauded with joy, "I am going to sugar off to-day, You may ask the girls and boys."

Far away are cranes so shining, Snow and glazes, flows so strong, That no foot tracks were discovered, As we youngsters trudged along.

Soon the camp reached mid shouting, Did the work for the day, Got our spoons and saucers ready, By the time our guests arrived, Visions of a bright April morning, When this news we lauded with joy, "I am going to sugar off to-day, You may ask the girls and boys."

Ninety-Six Years Old.

Maine Woman Who Rode on Maine's First Railroad Train.

Mrs. Priscilla Wight Chaplin of Bridgton recently attained the age of 96. She observed the day quietly, receiving calls from neighbors, with whom she chatted entertainingly.

Mrs. Chaplin was born in Otisfield, April 7, 1810. She was the third in order of birth of the 11 children of Jonathan and Mercy Harmon Wight.

Her father was a native of Wrentham, Mass., and came to Otisfield with his parents when only 11 months old. In 1845 she married the late Andrew Chaplin, son of John Chaplin, a Massachusetts soldier of the Revolution, who was one of the early settlers of Bridgton.

Upward of twenty years she has been a cripple, the result of a fall in which she broke her hip; but otherwise her health has continued surprisingly good.

During each day she sits in her easy chair knitting, reading or entertaining visitors. She is noted for wit and eccentricities, as well as for her remarkable memory and knowledge of people and events of the olden time. She is quick at repartee. Socially she is companionable and charming.

Among her varied experiences was that of being a passenger on the first steam car run in Maine, on the occasion of their trial trip from Portland to Saco. Aunt Priscilla has been a member of the Congregational church 63 years. Her Bible is her constant companion.

HILLS
PRACTICAL GRADUATE OPTICIAN.

The only optician in this county who has ever personally attended an Optical School and has diploma for same.

Hills is recommended by nearly every first-class Physician in Oxford County, what more do you want?

If your eyes need treatment go to your regular Physician, IT'S SAFER than fooling with Quack Doctors and Fake Opticians.

NORWAY ADVERTISER, 1895, 11 years ago, says:—"Vivian W. Hills, our local optician has been in Portland the greater part of the past few weeks, taking a post-graduate course at the Eye and Ear Infirmary must necessarily be a benefit to Mr. Hills in the examination of the eye. Mr. Hills took his first course ten years ago in Chicago and ever since has been in the vanguard of all others. He also was the first in Oxford County to make a specialty of fitting the eye for all errors."

Hills' prices are the lowest. Why pay \$5.00, \$4.00, or \$3.50 when you can get the very same at Hills for \$2.50. Why pay \$2.50, \$2.00, when you can get the same at Hills for \$1.00?

Don't understand us saying we are "the only one who can fit you—some 'travelling men,' 'spectacle dealers,' 'would be opticians' and 'quack doctors' will fit you so you can see, but you will pay double the price that HILLS would ask you for the same. How do you know but a pair fitted by HILLS would be less strain on the eyes? Try it, for why take chances? Don't fool with your eyes.

Anyone can sell Glasses, WE FIT THEM.

Some Painting Needed

What kind of paint will you use? Can you be sure of getting it? So few paints are reliable—so many are not. It's costly to have paint "chalk off," fade or peel soon after the bill is paid. Save money and uncertainty by using **PORTLAND PAINTS**. They have a reputation to uphold, and the makers a name to protect.

PORTLAND PAINTS wear equally well on interior work or exposed surfaces. They are durable. Sun, rain and wind cannot blister, wash or fade them. And they are economical to apply. Work easy under the brush and spread evenly. Your dealer will show you our sample sheet, containing 48 durable colors for every class of work.

If your dealer cannot supply you, write to us.

IMPORTANT To Norway.

Nothing is more important to Norway than the good health of her people. Can they fill their place in the busy town unless they are well?

No one trouble is responsible for more nervousness, sleeplessness, general debility, weakness, back-aches, rheumatism, even ill-temper and peevishness than indigestion.

Fortunately, a combination of remedies, called Mi-o-na stomach tablets, has been discovered that absolutely cures indigestion and restores to health the whole digestive system.

The use of Mi-o-na is a safeguard against many ills; it acts directly upon the gastric glands, restores perfect action to the digestive organs, aids the assimilation of food, and so strengthens the whole digestive system that you can do anything at any time without fear of indigestion.

Just one little tablet out of a 50 cent box of Mi-o-na before meals for a few days, and you will soon regain perfect health and strength, and be able to eat anything digestible without fear of stomach difficulties.

So reliable is Mi-o-na in curing all forms of stomach weakness and trouble, that Noyes Drug Store give a 50 cent guarantee that the remedy will cure you unless it cures. Mi-o-na is 50 cents, and is invaluable to anyone who suffers with indigestion, nervousness or weak stomach.

The spring term of Hebron Academy opens with about the normal attendance a few pupils having entered and some of the older ones dropped out. Prof. A. L. Laffiere of Norway is to be found again at his post as instructor in French and German. Mr. Laffiere has been in Hebron ever since his graduation from college five years ago, and at the end of the last school year he put in his resignation for the purpose of going into business on his own account. Another man, the late Prof. Kern, was secured to take his place, but at the beginning of the present year it was found that the modern language department was to be so large that it was impossible for one man to take entire charge of it so with some difficulty the trustees secured Mr. Laffiere, but for the fall term only. At the end of the fall term of school he left to go into business, but the death of Mr. Kern left the position of modern language teacher open once more, and, very fortunately, Mr. Laffiere was in a position to again take it this spring.

Letter to George Walker, Norway, Maine.

Dear Sir: The way to buy paint is to go by the name. There is a name never seen on shanty paint or weak paint or short-measure paint: Devoe.

There are a hundred different names in paint. Some are sham; some weak; some short-measure; and some all three. If there is another such paint as Devoe lead-and-zinc, we don't know it. There are a few fairly good paints; a few; only one Devoe. A gallon Devoe is worth a gallon-and-a-half of those few.

Mr. Aaron Higgins, of Plainfield, N. J. always used 15 gallons of mixed paint for his house. Last Spring he bought 15 gallons of Devoe and had 4 gallons left.

Yours truly,
F. W. Devoe & Co.
F. P. Stone sells our paint.

He Insisted on Paying the Lawyer.

A prominent Norway lawyer tells the following story:

A gentleman recently came to my office and asked questions and sought advice in a business matter which was out of the usual line that comes to a lawyer's office. A few minutes were spent in a pleasant neighborly chat and it was suggested by the attorney that he was soon to go to Portland, and he would do the errand or business for him if he wished. It was so agreed and on his return from that city he reported what he did which was satisfactory, and the man wished to pay him, but as he had been to no expense and it was simply a neighborly kindness, there was no charge, and the man was told so.

The man insisted on paying and the lawyer said he had no bill and refused to accept money. A dollar was thrown onto the table and the man left the office.

A few days later at noon the attorney's wife asked him why he had ordered a barrel of flour and showed some surprise that he didn't know they were not out of flour. The lawyer insisted that he had sent no flour to the house, and if a barrel had come it was through a mistake. "Now look here," said the lawyer of the house, "Mr. McCrellis' delivery man said this flour was paid for and he was told to leave it here, and there was no mistake about it."

It was as nice a barrel of flour as could be purchased in town.

Subsequent investigation showed that the flour was bought and sent to the house by the man who threw the dollar on the table and insisted on paying a fair equivalent for service rendered.

Likes Good Roads And the Advertiser.

I am glad that you notified me that my subscription to your paper had run out, and that you did not stop the paper, as I should rather go without my copy, fast for a week than to miss one copy. We stay at home as more interested in what occurs weekly in our own rural by counties than in the "Coal Strike," or "Ice Combine."

Ever since reading what you wrote on the road-making plan, I have felt like saying with "Warren," the Comedian who used to play in Boston Museum, "There's my sentiments and I shake hands on't."

I am nearing the three score years and ever since my childhood have rode more or less over the road that leads from Frost Corner (so called) to Norway village, and every year they are fixing that road. If they had built not more than two rods a year, and built right, they would now have a start for a lasting road.

The way most roads are cared for now is no improvement on the old "district surveyors." The road machine just goes over the roads every spring and scoops in what few rocks they managed to rake partly outside the wheel ruts the year before, and the bushes get near the road.

Now it is most time for the automobiles to be getting round; (the terror of all women—and a few men.) With the narrow roads one cannot see ahead far enough to even think what to do if the horse be frightened. While the cutting of bushes would be a great improvement it would not be all.

I will say here your plan of improving the looks of the highway along the lake is praiseworthy, and I will add my little mite to help the good cause along.

Easter Openings.

Friday and Saturday seemed especially designed for the Easter millinery openings after the lingering days of winter of the past week, but on Friday spring came with a rush.

Mrs. R. L. Powers' show window was artistically done in green and white, with the back a double arch, with a large white, smilax under oval hoops on a fine millinery display. "Marie's" hat was white in high side effect of lace straw and maline, with bird of paradise feathers. George Washington, jr., sailor of pyroxylin straw in Alice blue, with a blue bird and a mass of loops under the brim. Roses cut from ribbon, applied on quills, and also on the maline, around the crown of a sailor hat. Another hat had a chiffon embroidered crown and white plumes massed in the back under the brim.

What are the styles? Well, they are varied, perhaps a little more varied than last year.

The Dresden ribbons are being used quite extensively this year. There never was such a variety in extremely light "sailors" as are to be seen this year.

The three principal hats of the season are the flat crown sailor, George Washington, jr., Kitty Jean for young women, and the fascinating boat shape turbans, Fritz Schell.

A great many of the hats are trimmed in lavish masses of tiny blue flowers, while in others the American Beauty protea and the blue and white are made of leghorn, manilla and horsehair.

In untrimmed hats and trimmings the spring display includes everything under the sun that is used in millinery. There is a most comprehensive assortment of colors and the entire department is taken up on the appearance of a wondrous spring array, yet in everything there is such an assurance of correctness that not an inch of space is left to a superfluity.

A Peter Pan hat in the raspberry shades was braved by a local photo artist in this vicinity. One of the novel sets of post cards, six in all, is a pen and ink sketch of scenes at Lake Penesseewassee illustrating the poem "Lake Penesseewassee" by Mrs. Elliott Smith.

On each of the post cards is a stanza of the poem written in Old English by Miss Libby and the sketches are also done by her. Some of her most striking photo work is done on rough paper in the sepia shades. Then there are the photo squares, those beautiful little colored small oil paintings that are finely at this studio. The medallions of local views are as Miss Shattuck said "The pride of Miss Libby's heart" and well they might be, and the pride of our home people as well. She also has a beautiful set of several small oil paintings that are finely done.

Miss Shattuck's Easter cards in water colors are sweet, especially the sunbonnet children, not to mention the chickens. She has water colored panels and framed pictures. Some of them are local scenes.

We must not forget the passepartout pictures that are just now "the craze." Miss Libby has the material for making these including the gilt binding. The framelets are something new. A hand carved frame, touched with pyrography, attracts notice.

The aristo lamp, the electrical device by the use of which sittings may be made for photos when dark, gives a strong, violet tinted light.

Group Quickly Cured.

An Old Friend Heard From.

Many people of Lovell and Norway have often wondered what became of James Whitney and his wife who were so well known here. They are at present in Eureka, Cal., and are living with their daughter, Mrs. Fred Yarnell of 1222 Fourth street. Mr. Whitney has been confined to his bed for five years and although over 80 he is as jolly as when he was a boy in the village of Lovell where he wooed and won his wife then George Moore. His wife is well and keeps her health wonderful.

A man interested in shoe machinery was asking about this lasting machine ever made. As this man understood it the machine was washed down the stream with other articles during a freshet.

STOP, WOMAN!

AND CONSIDER THE ALL-IMPORTANT FACT

That in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience covers a great many years.

Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, and for many years under her direction, and since her death, only, she has been advising sick women free of charge.

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probable examinations of their family physician, or even to a stranger.

Without money or price you can consult a woman whose knowledge from actual experience is great.

Mrs. Pinkham's Standing Invitation.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken.

But of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound, and write Mrs. Pinkham, Lynn, Mass., for special advice.

When a medicine has been successful in restoring to health so many women, you cannot well say, without trying it, "I do not believe it will help me."
